“GEARLESS” Roll Away Fan Folder

Featuring: ELECTRONIC REGISTRATION

This unit electronically registers the fold mechanism to the cross perforation, eliminating the need for change gears. An optical sensor registers to a que mark or label gap.

This unit can fold 1/8", 1/6", 32DP and metric sizes, in-line and off-line. Off-line the need for pin tractor holes is eliminated.

Available as an option on the following folders:

- 10" wide 590 Series
- 15" wide 515 Series
- 20" wide 500 Series

Speeds up to 500 ft. (130 meters+) per minute may be achieved.

Advantages:

- Eliminates change gears
- Eliminates the need for running adjustment
- Eliminates the need for sprocket or line holes when folding off-line
